

Rishikesh Public School 9th Grade.

Namaste!

My name is Ganga. I am 14 years old. I was born in India. My parents are from Nepal. When my parents were in Nepal they were very poor and they didn't have a decent house to live in. In Nepal everything was worse. People were very rude to each other. They were not helping my parents. My parents faced so many problems and they couldn't earn money to feed us. So they came to India to work. Somehow my parents found out about Ramana's Garden and then they went to work for Prabha Ji. I was born here and have spent my whole life here. This place is so good. Every child can fulfill their dreams here and have a happy life.

I got everything here that I couldn't get in Nepal. I got food, clothes, help from everybody and most important, education. Education is so important for all kids. I am just finishing class 8th and soon I will start going out school for 9th grade. After finishing high school I want to go to college. After I finish my studies I want to be an air hostess. I have a chance to fulfill my dream.

Ramana's Garden is like a heaven to me. In India there are so many kids who can only dream of education, learning to dance and so many other things but we can do it here in this place. I'm so lucky to be here with my family. I have one older brother and a younger sister. I want to help poor and needy people when I grow up and fulfill my dreams.

Thank you very much!
