

Sai Baba 11<sup>th</sup> Grade.

Namaste,

My name is Kulkeet and I was born in Ujjain in 1996 to a poor family. My father was an alcoholic and a violent person. He used to drink alcohol and fight with my mother and beat her very badly. My mother worked so hard to feed us. My father did not give any money at home. He often used to take money from home which my mother worked so hard to earn. When my mother refused to give it to him he beat her. So she was unable to feed us and give us good education.

One day he came home when he was drunk and started fighting with my mother. When my mother started fighting back he left us and went to Rajasthan. Then my mother work hard to rise us but she couldn't and she came to Prabha Ji asking for work and then Prabha Ji allowed my mother to work at Ramana's. After my mother told Prabha Ji about us she allowed me to come me and live in Ramana's.

My childhood was not so good but when I come to Raman's I got the happy life in Ramana's Garden. I got everything which I cannot get from my home. Now I think that only because of Ramana's I am getting a good education, good food, clothes and a place to live. Ramana's is like a heaven for me. All the members of Ramana's live like a family and I am very happy to be a part of it. Ramana's Garden is a place where all the needy children get the support they need so they can have a bright future.

I have been living here for 7 years and now I am in 10 grade. I have to study hard for next two years to complete school. After completing my high school. I like to go university to study engineering (Architecture). I want to earn lots of money so I can help needy children. I would like to come back to Ramana's and sponsor a child.

Thank you very much!
