

Sai Baba 11th Grade.

Hello!

My name is Uday. I was born in Nepal in 1997. Although I don't remember that time I know I was brought to India at the age of 2 because my parents had to leave because of fighting going on in Nepal. As my family was very poor they could not raise me properly. They did their best to raise me but there were still a lot of problems. So one of my relatives told them about Ramana's Garden and I was brought here.

I do remember my childhood from when I came here. I remember all about Ramana's Garden because it is my home. I was only 7 years old when I came to Ramana's so I have been raised here. Ramana's is my home. Even though I am away from my family, I am happy I am here with a very big family in Ramana's. Ramana's has given me all important things that a child needs. I think if I had not been brought here I would not have been educated. From Ramana's I have gotten more love and care than from my own home. I think Ramana's is a hope for every child who can't get an education or have a good home. Ramana's gives an education, a home and the most importantly, a family.

Now I am starting 11th grade which means two more years of high school. I have taken physics and maths because I want to become a pilot one day. So after high school I want to go to university for education to become a pilot.

My main goal is to become a pilot and if I do I would like to help those children who can't get an education and don't have a home. I would like to help others, not only in India at Ramana's but around the world. I believe all children have the right to loved, cared for and should have a home and a family.

Thank you so much!
